IEG PI NOTICE

No. 33-75

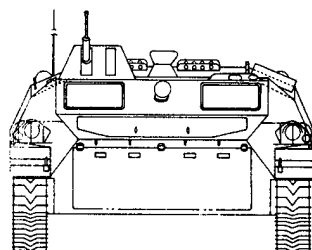

TITLE/SIGNIFICANCE: AT/APC M-1970. This vehicle, formerly identified as GT-T modified, has been designated AT/APC M-1970 in the USAIIC report identified below.

COMMENT: The AT/APC M-1970 is a tracked armored amphibian having a forward superstructure with a truncated cone-shaped turret forward on the right side. The sloping front deck extends forward of the tracks tapering from the stepped area. A flat armored roof covers the personnel and engine compartments with double-beveled sides extending over the tracks. The rear is vertical. Applications include towing 160mm mortars, 100mm T-12 field guns, and 122mm M-1938 howitzers. It may also serve as an APC, command, or fire direction center vehicle.
